PRODUCT CATEGORY	SHEET CONSTRUCTION	BENEFITS	GAUGES	COLORS	SHEET SIZES
Resilient®	<ul style="list-style-type: none"> A velvety soft, closed cell foam board that recovers immediately after compression. 	<ul style="list-style-type: none"> Smooth surface for mounting and printing Velvet black core – requires no edge treatment 27% lighter weight Spring-back technology - Dent resistant corners Cuts with most commercial cutting equipment. 	1/2", 3/4", 1"	Black	50" x 87"
INFINITY®	<ul style="list-style-type: none"> High-density, extruded polystyrene foamboard with styrene facers 	<ul style="list-style-type: none"> UV Resistant Cold-bending capabilities Litho-grade styrene face sheets High-density foam center 	3mm 3/16" to 1"	White White Black	16"x20" to 48"x192" 16"x20" to 60"x192"
EAGLECELL™	<ul style="list-style-type: none"> All-paper honeycomb graphics board with double-thick, bright white, clay-coated facers 	<ul style="list-style-type: none"> 100% recyclable core & facers Superior structural strength 	1/2" to 4"	Kraft White	48"x96" to 60"x120"
InSite® Reveal®	<ul style="list-style-type: none"> Extruded polystyrene foamboard with clay-coated, bright white or black, uncoated facers 	<ul style="list-style-type: none"> Proprietary Reveal® foam center Smooth clay-coated liners Superior cutability 	1/8" to 1"	White Black	24"x36" to 60"x192"
InSite® Reveal® Acid Free	<ul style="list-style-type: none"> Extruded polystyrene foamboard with acid-free paper facers 	<ul style="list-style-type: none"> Proprietary Reveal® foam center Acid-free paper facers Double-sided protection 	3/16"	White	24"x36" to 48"x96"
InSite® Reveal® Canvas	<ul style="list-style-type: none"> Extruded polystyrene foamboard with bright white, textured 1/S or 2/S facers 	<ul style="list-style-type: none"> Proprietary Reveal® foam center Canvas texturized 1 or 2/S facers 	3/16"	White	24"x36" to 60"x120"
InSite® Reveal® Heat Activated	<ul style="list-style-type: none"> Extruded polystyrene foamboard with clay-coated liners, one of which is coated with heat-activated adhesive 	<ul style="list-style-type: none"> Smooth adhesive coating Proprietary Reveal® foam center Used in Mechanical, Vacuum, Heated roller laminator 	1/8" 3/16"	White Black	24"x36" to 48"x96"
InSite® Reveal® Self Adhesive	<ul style="list-style-type: none"> Extruded polystyrene foamboard with clay-coated liners, one of which is coated with pressure-sensitive adhesive 	<ul style="list-style-type: none"> Smooth adhesive coating Proprietary Reveal® foam center Available in Low-Tack & High-Tack 	3/16"	White Black	24"x36" to 48"x96"
LitePrint™ FR	<ul style="list-style-type: none"> Flame retardant expanded polystyrene foamboard with flame resistant paper facers 	<ul style="list-style-type: none"> FR certified by CA State Fire Marshall UL classified core 	3/16"	White	48"x96"
MountCor®	<ul style="list-style-type: none"> Extruded polystyrene foamboard with specially formulated, low-temp, pH neutral, permanent adhesive and air release technology 	<ul style="list-style-type: none"> Lowest activation temperature 130°F (54°C) Acid Free, pH neutral Air-release technology Patented permanent adhesive No adhesive transfer to roller laminator 	3/16"	White Black	24"x36" to 48"x96"
MountCor® Canvas	<ul style="list-style-type: none"> Extruded polystyrene foamboard with specially formulated, low-temp, pH neutral, permanent adhesive and air release technology 	<ul style="list-style-type: none"> Permanent adhesion to real canvas Lowest activation temperature 130°F (54°C) Acid Free, pH neutral Air-release technology Patented permanent adhesive No adhesive transfer to roller laminator 	3/16"	White	24"x36" to 48"x96"
Ryno Board®	<ul style="list-style-type: none"> Extruded high-density polystyrene foamboard with double-thick clay coated, bright white 	<ul style="list-style-type: none"> High-density foam center Outstanding compressive strength 	3/16" to 1/2"	White	24"x36" to 60"x120"
